Hi Rafael,

Find attached the required documentation for a new wood heater certification. I included the summary test report, the certificate of conformity, a version of the quality control and the actual request for certification. We also have a complete test report including Confidential Business Information (CBI) and a version excluding CBI information and I would like to know if there's a safe way to send you those reports electronically. Do you have something such as a "Dropbox" or a FTP server?

Best regards,

Vincent Pelletier, Ing./Eng. Jr.
